GITAM
DEEMED TO BE UNIVERSITY

To whom it may concern,

It is with great enthusiasm that I am writing this letter of recommendation for Mr. Mitra Boga in support of his application to pursue an internship at your esteemed organization.

As Suvrima Datta, Assistant Professor, School of Technology, GITAM (Deemed to be University), I had the privilege of teaching him Database Management Systems (CSEN2061). Throughout the course, Mitra consistently demonstrated a deep understanding of core concepts, an analytical mindset, and a tenacious effort to learn and apply new concepts in practical settings.

What differentiates Mitra is his clarity on his goals and staggering discipline. He has never missed a deadline and has always been the first to submit any assignment. He actively engages in class discussions and is quick to implement database commands during his lab sessions. His ability to marry theoretical computation with real-world problem-solving is commendable. Beyond the classroom, Mitra's entrepreneurial mindset and passion for innovation are evident through his self-initiated projects, such as his Data Backup & Recovery Automation System. The project compounds on his classwork, utilizing tools like Oracle RMAN, Bash Scripting, AWS S3 and Cron Jobs. This is a great example of Mitra's creativity and problem-solving, as the project delivers business continuity and disaster recovery planning.

During his time as my student, he has consistently demonstrated an aptitude for progression and growth. He grasps all the conceptual and applicable concepts in the course, such as Entity-Relationship (E-R) Modelling, Types of Databases (Network, XML DB, etc.), Integrity Constraints, Basic SQL (DDL, DML, DCL, TCL), Advanced SQL Concepts, Relational Algebra and Calculus, Normalization and Functional Dependencies, Transaction Management and ACID Properties, Concurrency Control Mechanisms, and Crash Recovery (ARIES)

I am confident that Mitra will bring the same integrity, creativity and technical excellence to any internship or professional endeavour he undertakes. I wholeheartedly recommend Mr. Mitra Boga without any reservation.

S. Datta

Dr. Suvrima Datta, Ph.D., Database Management Systems,
Assistant Professor, Department of Computer Science,
School of Technology, GITAM University,
Hyderabad, INDIA

GITAM Hyderabad (Deemed to be University)
