GITAM
DEEMED TO BE UNIVERSITY

To whom it may concern,

It is with great enthusiasm that I write this letter of recommendation for Mr. Mitra Boga in support of his application for an internship/professional endeavour at your esteemed organization.

As Archana M R, Assistant Professor, School of Technology, GITAM (Deemed to be University), I had the privilege of teaching him Cryptography & Network Security (CSEN2071). Throughout the course, Mitra consistently demonstrated a deep understanding of core concepts, an analytical mindset, and a strong drive to connect academic theory with practical application.

What sets Mitra apart is his clarity of purpose and multidisciplinary curiosity. He actively engages in topics ranging from Software Engineering, Cloud Computing, DevOps, to Cyber Security, Cloud Security, Cryptography, Network Security and beyond, always seeking to integrate these domains in meaningful ways. His ability to translate abstract concepts into real-world problem-solving is remarkable, and his keen interest in Security enables him to apply principles from this course into other IT domains of his interest. Beyond the classroom, Mitra's entrepreneurial mindset and passion for innovation are evident through his self-initiated projects, such as SecureLink, which is a secure messaging platform that demonstrates AES encryption, RSA/Diffie–Hellman key exchange, and SHA-256/HMAC authentication to protect communication. The project directly applies key Cryptography and Network Security topics, including symmetric encryption, public-key cryptography, and message authentication.

During his time as my student, he has consistently demonstrated remarkable performance. He has a strong grasp of the conceptual and applicable concepts in the course, such as Security Mechanisms, Substitution Techniques, Ciphering Techniques, Block Ciphers, DES Algorithm, AES, Stream Ciphers: RC4, Cryptographic Number Theory, RSA Algorithm, Security of RSA, Hash Functions, SHA, MAC, Digital Signatures, HMAC, DAA, CMAC, DSS, SSL, TLS, Firewalls and Email Security: S/MIME.

I am confident that Mitra will bring the same integrity, creativity and technical excellence to any internship or professional endeavour he undertakes. I wholeheartedly recommend Mr. Mitra Boga without any reservation.

Mrs. Archana M R, M. Tech, Cryptography & Network Security,
Assistant Professor, Department of Computer Science,
School of Technology, GITAM University, Hyderabad, INDIA
